

# Extron CERTIFIED

**AV Associate**

- ▶ Provides a solid foundation of AV industry and technology knowledge
- ▶ Learn about the latest AV technologies, including networking, system control, and digital signal processing
- ▶ Learn about Extron products, technology, and applications
- ▶ Prerequisite for advanced Extron certification programs
- ▶ Earn continuing education credits from professional organizations, such as InfoComm and BICSI

## Extron AV Associate Program

The online Extron AV Associate Certification program provides a working knowledge of AV technologies and an overview of Extron products and applications. The entire program can be completed online from home or work without extensive travel or disruption to your busy work schedule. When you become a Certified Extron AV Associate, you'll achieve industry-wide accreditation, while gaining the skills you need to succeed.

## Extron Certification

In the highly competitive AV industry, education, training, and certification are important to the success of both individuals and companies. Like a professional license, certification instills confidence through reliable evidence of a critical set of knowledge and skills. Acquired fluency and expertise in any field saves valuable time and money, and ensures a higher level of customer service and satisfaction.

The Extron Certification program is for AV professionals who wish to advance their knowledge of AV system technology, design, and configuration. The program consists of online and instructor-led training components and provides system integrators, installers, and consultants an opportunity to learn new skills, validate their skills, and gain a better understanding of the latest technologies and solutions.

# Establish Your Knowledge of AV Technology

## Audience

This program is ideal for individuals new to our industry or AV professionals interested in validating their knowledge of current technologies.

## Prerequisites

There are no educational prerequisites. Our AV Associate Certification program can be applied as a standalone course or combined with other Extron training. The program serves as the foundation for advanced Extron educational opportunities.

## Delivery Method

The Extron AV Associate course and exam are only available online. To access the AV Associate course material you will need a computer running Microsoft® Windows® operating system and Internet Explorer® version 5.5 or higher.

## Course Content

The AV Associate Certification program consists of multiple online lessons. These lessons are subsets of the following general categories:

- Who is Extron?
- AV Technologies
- Extron Tools

## Achieving Extron AV Associate Certification

- Complete online training
- Successfully pass the online certification exam

## How Can I Get Started?

To request enrollment into the AV Associate Certification program, contact your Extron Support Representative or visit [www.extron.com/training](http://www.extron.com/training).

## Continuing Education Units

The Extron AV Associate Certification program contributes to Continuing Education Units - CEUs for a variety of established industry organizations, including InfoComm and BICSI. For more information, visit [www.extron.com/training](http://www.extron.com/training).
