

WMK 100

WALL MOUNT KIT FOR POLEVAULT® SYSTEMS

- Securely mounts PoleVault System equipment to a wall
- Protects components from tampering and theft
- Available exclusively as the wall mounting option for PoleVault Systems
- Designed for installations that include a flat panel display or wall-mounted, short throw projector
- Large base plate offers a wide variety of mounting and cable management options
- AC outlet opening allows power connections to be protected
- Raceway knockouts are compatible with the most common surface mount systems

The Extron WMK 100 Wall Mount Kit for Extron PoleVault® Systems is an equipment mounting option for PoleVault System installations that include a flat panel display or wall-mounted, short throw projector. Its two-piece metal enclosure allows the PoleVault System switcher, power supply, and other equipment to be mounted safely and securely to a wall.

DESCRIPTION

The Extron **WMK 100** Wall Mount Kit for PoleVault® Systems is a secure, fully enclosed, vented housing for wall-mounting the PoleVault System switcher, power supply, and cables. The WMK 100 allows PoleVault equipment to be mounted on a wall in close proximity to the display, which makes it ideal for installations that do not use a ceiling or pole mounted projector. The WMK 100 is available in a white painted finish.

The WMK 100 features a two-piece metal base and cover design that offers easy access to equipment and cables for installation and maintenance. In addition to the PoleVault Switcher and power supply, the WMK 100 includes openings for the AC outlet and cables, as well as several anchor points for cable management. The components fasten directly to the base plate. The tamper-proof, theft-deterrent enclosure conceals and protects the A/V components.

FEATURES

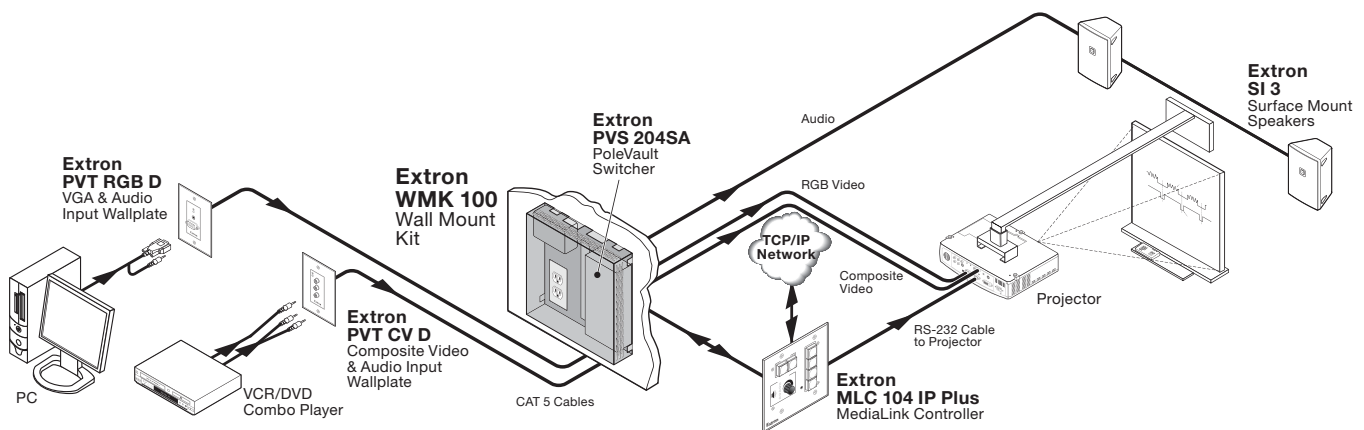

- Securely mounts PoleVault System equipment to a wall
- Protects components from tampering and theft
- Available exclusively as an option for PoleVault systems
- Designed for installations that include a flat panel display or wall-mounted, short throw projector
- Large base plate offers a wide variety of mounting and cable management options
- Raceway knockouts are compatible with the most common surface mount systems
- AC outlet opening allows power connections to be protected
- Dimensions: 12" H x 12" W x 2.5" D (30.5 cm H x 30.5 cm W x 6.4 cm D)
