DESCRIPTION

The Extron **XTP T MK 202** is a compact, two-input transmitter that sends HDMI or RGBHV video, audio, and control up to 330 feet (100 meters) over a shielded CATx cable. The XTP® transmitter is compatible with standard two gang MK-type electrical junction boxes for convenient installation in wall-mount environments. It supports computer video up to 1920x1200, including HDTV 1080p/60 Deep Color and 2K. Incoming analog video signals are digitized for reliable transmission, and separate analog stereo audio transmissions can be embedded onto the output signal. Features include automatic switching between inputs with selectable prioritization and insertion of bidirectional RS-232 and IR to enable remote AV device control. Designed for XTP Systems®, the XTP T MK 202 can be remotely powered by the XTP CrossPoint® matrix switcher.
