

# PMK 550 Bracket Kit • Installation Guide

The Extron® PMK 550 Bracket Kit consists of a pair of brackets and two 4-40 x ¼ inch screws. The kit is used for mounting accessory devices (up to 1U high, a quarter rack wide, and three inches deep), onto a PMK 550 Projector Mounting Kit base plate.

**CAUTION:** Maximum load for the PMK 550 is 15 lbs (6.8 kg).

## Installation

**NOTE:** Ensure the finished installation is in accordance with local and national building codes, fire and safety codes, UL requirements, and local and national electrical codes. See the *PMK 550 User Guide* for details on how to install the PMK 550.

1. If the PMK 550 is already installed, remove the cover securing screws and then remove the covers.
2. Fit both brackets into the accessory device mounting slot on the PMK plate and slide them fully apart.
3. Place the accessory device between the brackets (see figure 2).

**Figure 2.** Installing the Device

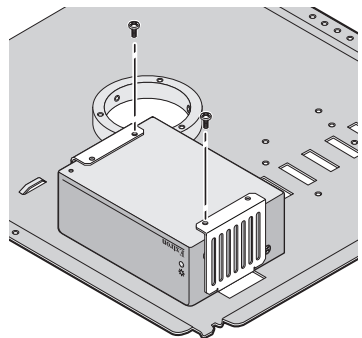

**NOTE:** Place the device onto the PMK 550 base plate with the rear panel facing inwards (towards the projector pipe) to allow for easy cable connection.

4. Slide both brackets up to the device (see figure 2), and secure the device with two 4-40 screws (see figure 3).

**NOTE:** Use only the screws supplied with the kit to avoid damaging it.

5. Cable and test the device as required.
6. Replace and secure the PMK 550 covers.

For configuration and operation, see the user manual for the accessory device.
