

The Extron RS-232 Cable interconnects RS-232 controlled devices within a professional A/V system. Many Extron products are controllable via RS-232 or contact closure, allowing remote control for input selection and/or other functions. Contact closure momentarily shorts an input's pin on a remote connector to ground.

Part Numbers

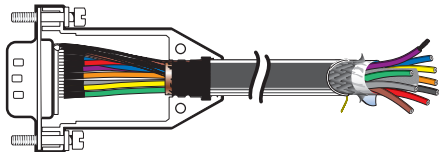

This guide covers the cable assembly series with part numbers 26-437-xx. Contact an Extron representative for details on available lengths.

Pin Configuration

Pin	Wire Color	RS-232 Function	Contact Closure
1	brown		input #1
2	red	transmit (Tx)	
3	orange	receive (Rx)	
4	yellow		input #2
5	green	ground (Gnd)	ground
6	blue		input #3
7	violet		input #4
8	gray		input #5
9	black		input #6
